YOU HIT THE NAIL ON THE HEAD, ELENA! IN ORDER TO BUILD A BUSINESS YOU NEED TO SAVE FOR EQUIPMENT YOU'LL NEED TO BUY IN THE FUTURE!

WORDS FROM WARREN

Hey kids, Warren Buffett here! Managers have to save to buy the equipment a business needs to grow in the future. If a business spends all the money it earns and doesn't save money, then it can eventually go out of business. Saving money is also important for you in your lifetime. You should put aside some money from what you earn so you can buy the things you need later on. So remember what Ben Franklin said: "A penny saved is a penny earned."
